Historical Note: Chapter 55 of Title 11 is based substantially on Public Health Regulations, Chapter 37, Water Pollution Control, Department of Health, State of Hawaii. [Eff: 5/25/74, am 1/20/75, 8/19/75, 1/31/81; R 11/27/81]

§11-55-01 Definitions. The following definitions shall apply in the interpretation and enforcement of this chapter:

"40 CFR" means the Code of Federal Regulations, Title 40, Protection of Environment, revised as of July 1, 1996, unless otherwise specified.

"Act" means the Clean Water Act (formerly referred to as the Federal Water Pollution Control Act or Federal Water Pollution Control Act Amendments of 1972) Public Law 92-500, as amended by Public Law 95-217, Public Law 95-483 and Public Law 97-117, 33 U.S.C. 1251 et. seq.

"Administrator" means the Administrator of the U.S. Environmental Protection Agency or an authorized agent.

"Applicable effluent standards and limitations" means all state and federal effluent standards and limitations to which a discharge is subject under the Act; chapter 342D, HRS; and rules of the department including, but not limited to, effluent limitations, standards of performance, toxic effluent standards and prohibitions, and pretreatment standards.

"Applicable water quality standards" means all water quality standards to which a discharge is subject under the Act; chapter 342D, HRS; rules of the department; and which have been (1) approved or permitted to remain in effect by the Administrator pursuant to Section 303(a) or Section 303(c) of the Act, 33 U.S.C. §1313(a) or §1313(c) or (2) promulgated by the Administrator pursuant to Section 303(b) of the Act, 33 U.S.C. §1313(b).

"Best management practices" or "BMPs" means schedules of activities, prohibitions or designations of practices, maintenance procedures, and other management practices to prevent or reduce the pollution of state waters. Best management practices also include treatment requirements, operating procedures, and practices to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage.

"Continuous discharge" means a "discharge" which occurs without interruption throughout the operating hours of the facility, except for infrequent shut-downs for maintenance, process changes, or other similar

§11-55-01

activities.

"Department" means the state department of health.

"Director" means the director of the department or an authorized agent.

"Draft permit" means a document prepared under 40 CFR §124.6 indicating the director's tentative decision to issue or modify, revoke and reissue, terminate, or reissue a "permit." A notice of intent to terminate a permit as discussed in 40 CFR §124.5 is a type of "draft permit." A denial of a request for modification, revocation and reissuance, or termination, as discussed in 40 CFR §124.5, is not a "draft permit."

"Effluent" means any substance discharged into state waters or publicly owned treatment works or sewerage systems, including but not limited to, sewage, waste, garbage, feculent matter, offal, filth, refuse, any animal, mineral, or vegetable matter or substance, and any liquid, gaseous, or solid substances.

"EPA" means the U.S. Environmental Protection Agency.

"Facility" or "activity" means any NPDES "point source" or any facility or activity (including land or appurtenances thereto) that is subject to regulation under the NPDES program.

"HRS" means the Hawaii Revised Statutes.

"Hawaiian fishponds" means the same thing as defined in section 183B-1, HRS.

"Indirect discharge" means the introduction of pollutants into a publicly owned treatment works from any non-domestic source regulated under Section 307(b), (c), or (d) of the Act.

"Industrial User" means a source of indirect discharge.

"Major facility" means any NPDES facility or activity classified by the Regional Administrator in conjunction with the director.

"Medical waste" means isolation wastes, infectious agents, human blood and blood products, pathological wastes, sharps, body parts, contaminated bedding, surgical wastes and potentially contaminated laboratory wastes, dialysis wastes, and additional medical items as the Administrator shall prescribe by regulation.

"National Pollutant Discharge Elimination System"

or "NPDES" means the national program for issuing, modifying, revoking and reissuing, terminating, monitoring and enforcing permits, and imposing and enforcing pretreatment requirements under Sections 307, 402, 318, and 405 of the Act.

"New discharger" means any building, structure, facility, activity, or installation:

- (1) From which there is or may be a discharge of pollutants;
- (2) That did not commence the discharge of pollutants at a particular site before August 13, 1979;
- (3) Which is not a new source; and
- (4) Which has never received a finally effective NPDES permit for discharges at the site.

"New source" means any building, structure, facility, activity, or installation from which there is or may be a "discharge of pollutants," the construction of which commenced:

- (1) After the adoption, by the director, of rules prescribing a standard of performance which will be applicable to the source; or
- (2) After the publication by the Administrator of regulations prescribing a standard of performance which will be applicable to the source, if the standard is thereafter promulgated by the Administrator, whichever occurs first.

"NPDES form" means any forms provided by the Administrator or director for use in obtaining the NPDES permit or Notice of General Permit Coverage. These forms include the NPDES application, notice of intent form, and the NPDES reporting form.

"NPDES permit" means an authorization, license, or equivalent control document issued by the EPA or the director to implement the requirements of 40 CFR Parts 122, 123, and 124. NPDES Permit includes an NPDES general permit according to 40 CFR §122.28. NPDES permit does not include any permit which has not yet been the subject of final agency action, such as a draft permit.

"Owner" or "operator" means the person who owns or operates any "facility" or "activity" subject to regulation under the NPDES program.

§11-55-01

"Person" means the same thing as defined in section 342D-1, HRS.

"Permittee" means the person to whom the NPDES Permit is issued.

"Publicly owned treatment works" or "POTW" means any device or system used in the treatment (including recycling and reclamation) of municipal sewage or industrial wastes of a liquid nature which is owned by a state or municipality. This definition includes sewers, pipes, or other conveyances only if they convey wastewater to a publicly owned treatment works providing treatment.

"Regional Administrator" means the Regional Administrator of the U.S. Environmental Protection Agency Region 9 or an authorized agent.

"Representative storm" means a rainfall that accumulates more than 0.1 inch of rain and occurs at least seventy-two hours after the previous measurable (greater than 0.1 inch) rainfall.

"Sewage sludge" means the same thing as defined in section 342D-1, HRS.

"Site" means the land or water area where any "facility" or "activity" is physically located or conducted, including adjacent land used in connection with the "facility" or "activity."

"Standard of performance" means a standard for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the director determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants; provided that the standard shall not be less stringent than required under Section 306 of the Act, 33 U.S.C. §1316.

"State waters" means the same thing as defined in section 342D-1, HRS.

"Storm water" means the same thing as defined in 40 CFR §122.26(13).

"Treatment works" means the plant or other facility and the various devices used in the treatment of wastes including the necessary intercepting sewers, outfall sewers or outlets, pumping, power, and other equipment.

"Waste" means sewage, industrial and agricultural matter, and all other liquid, gaseous, or solid substance, including radioactive substance, whether treated or not, which may pollute or tend to pollute state waters.

"Water pollution" means the same thing as defined in section 342D-1, HRS.

The definitions of the following terms contained in Section 502 of the Act, 33 U.S.C. §1362, shall be applicable to the terms as used in this part unless the context otherwise requires: "municipality,"

"pollutant," "navigable waters," "territorial seas," "contiguous zone," "ocean," "effluent limitations," "discharge of a pollutant," "toxic pollutant," "point source," "biological monitoring," "discharge," "schedule of compliance," and "industrial user." ] (Auth: HRS §§342D-4, 342D-5, 33 U.S.C. §§1251, 1342, 1370) (Imp: HRS §§342D-1, 342D-2, 342D-4, 342D-5, 33 U.S.C. §§1251, 1342, 1370, 1251-1387, 40 CFR Parts 122; 123; 124, Subpart D and D; Part 125; §122.2)

- §11-55-02 General policy of water pollution control. (a) It is the public policy of this State:
- (1) To conserve state waters;
 - (2) To protect, maintain, and improve the quality of state waters:
 - (A) For drinking water supply, and food processing;
 - (B) For the growth, support, and propagation of shellfish, fish, and other desirable species of marine and aquatic life;
 - (C) For oceanographic research;
 - (D) For the conservation of coral reefs and wilderness areas; and
 - (E) For domestic, agricultural, industrial, and other legitimate uses.
 - (3) To provide that no waste be discharged into any state waters without first being given the degree of treatment necessary to protect the legitimate beneficial uses of the waters;
 - (4) To provide for the prevention, abatement, and

§11-55-02

control of new and existing water pollution;
and

- (5) To cooperate with the federal government in carrying out these objectives.

(b) Any industrial, public, or private project or development which could be considered a new source of pollution or an increased source of pollution shall, in its initial project design and subsequent construction, provide the highest and best degree of waste treatment practicable under existing technology.

(c) Permits issued under this chapter, and the related applications, processing, issuance, and post-issuance procedures and requirements, shall be at least as stringent as those required by 40 CFR §123.25(a).

[Eff. 11/27/81; am and comp 10/29/92; am and comp] (Auth: HRS §§342D-4, 342D-5, 33 U.S.C. §§1251, 1342, 1370) (Imp: HRS §§342D-2, 342D-4, 342D-5, 342D-50, 33 U.S.C. §§1251, 1288, 1311, 1312, 1316, 1317, 1342, 1370, 1251-1387, 40 CFR Parts 122, 123; 124, Subparts A and D; 125; §123.25(a))

§11-55-03 General prohibition. No person shall violate any provision of section 342D-50, HRS, or any NPDES permit issued under this chapter. [Eff. 11/27/81; am and comp 10/29/92; am and comp] (Auth: HRS §§342D-4, 342D-5, 603-23, 33 U.S.C. §§1251, 1342, 1370) (Imp: HRS §§342D-2, 342D-4, 342D-5, 342D-50, 603-23, 33 U.S.C. §§1251, 1342, 1370, 1251-1387, 40 CFR Parts 122; 123; 124, Subparts A and D; 125)

§11-55-04 Application for NPDES permit. (a) Before discharging any pollutant, or substantially altering the quality of any discharges, or substantially increasing the quantity of any discharge, a person shall file a complete NPDES application (which shall include a best management practices program if necessary under 40 CFR §125.102 and whole effluent toxicity testing data as required in 40 CFR §122.21(j)) or submit a complete notice of intent. Submittal of a notice of intent shall comply with and be regulated by sections 11-55-34.08 through 11-55-34.1. NPDES

applications shall be filed:

- (1) No less than one hundred eighty days before the discharge of pollutants; or
- (2) In sufficient time prior to the commencement of the discharge of pollutants to insure compliance with the requirements of section 306 of the Act, 33 U.S.C. §1316, or with any applicable zoning or site requirements established pursuant to Section 208(b)(2)(C) of the Act, 33 U.S.C. §1288(b)(2)(C), and any other applicable water quality standards and applicable effluent standards and limitations.

(b) Application for NPDES permits shall be made by the owner or operator on an NPDES application form provided by the director. The NPDES application shall be submitted with complete data, site information, plan description, specifications, drawings, and other detailed information. The information submitted shall comply with 40 CFR §§122.21(f) through (j) and (l) to determine in what manner the new or existing treatment works or wastes outlet, including a facility described in 40 CFR §§122.23, 122.24, 122.25, 122.26, or 122.27, will be constructed or modified, operated, and controlled. When a facility or activity is owned by one person, but is operated by another person, it is the operator's duty to obtain a permit on behalf of the owner. The operator shall provide written evidence that the owner authorizes the operator to apply on behalf of the owner and that the owner agrees to comply with all permit conditions. Only one permit is required for a single facility or activity.

(c) The director may require the submission of additional information after an NPDES application has been filed, and may insure that, if an NPDES application is incomplete or otherwise deficient, processing of the application shall not be completed until the owner or its duly authorized representative has supplied the missing information or otherwise corrected the deficiency.

(d) Every owner or operator applying for an NPDES permit or renewal of an NPDES permit shall pay a filing fee of \$1,000. This filing fee shall be submitted with the NPDES application and shall not be refunded nor

§11-55-04

applied to any subsequent NPDES application following final action of denial of the NPDES application.

- (1) When an NPDES application is filed for an NPDES permit for a substantial alteration or addition to a treatment works or waste outlet and where an NPDES permit had previously been granted for the treatment works or waste outlet, the owner or operator shall pay a \$1,000 filing fee which shall be submitted with the NPDES application.
- (2) A new owner of a discharge facility covered by an NPDES permit shall file a new NPDES application for a new NPDES permit unless the new owner submits a notice of automatic transfer that meets 40 CFR §122.61(b). The owner or operator shall pay a \$500 filing fee which shall be submitted with the NPDES application or notice of automatic transfer that meets 40 CFR §122.61(b).
- (3) An NPDES permittee shall file a new NPDES application for the transfer of discharge from one permanent location to another permanent location. The owner or operator shall pay the \$1,000 filing fee which shall be submitted with the NPDES application.
- (4) Fees shall be made payable to the "State of Hawaii" in the form of a cashier's check or money order. [Eff. 11/27/81; am and comp 10/29/92; am 09/23/96; am and comp
] (Auth: HRS §§342D-4, 342D-5, 342D-6, 33 U.S.C. §§1251, 1342, 1370) (Imp: HRS §§342D-2, 342D-4, 342D-5, 342D-6, 342D-13, 33 U.S.C. §§1251, 1288(b)(2)(C), 1316, 1342, 1370, 1251-1387, 40 CFR Parts 122, 123; 124, Subparts A and D; 125; §§122.21, 122.23, 122.24, 122.25, 122.26, 122.27, 122.61, 123.25(a), 124.3)

§11-55-05 Receipt of federal data. The director shall receive any relevant data collected by the Regional Administrator prior to participation in the NPDES in a manner as the director and the Regional Administrator shall agree. Any agreement between the

director and the Regional Administrator shall provide for at least the following:

- (1) Prompt transmittal to the director from the Regional Administrator of copies of any NPDES applications, or other relevant data collected by the Regional Administrator prior to the state or interstate agency's participation in the NPDES; and
- (2) A procedure to insure that the director will not issue an NPDES permit on the basis of any NPDES application received from the Regional Administrator which the Regional Administrator has identified as incomplete or otherwise deficient until the director has received information sufficient to correct the deficiency to the satisfaction of the Regional Administrator. [Eff. 11/27/81; am and comp] (Auth: HRS §§342D-4, 342D-5, 33 U.S.C. §§1251, 1342, 1370) (Imp: HRS §§342D-2, 342D-4, 342D-5, 33 U.S.C. §§1251, 1342, 1370, 1251-1387, 40 CFR Parts 122, 123; 124, Subparts A and D; 125; §123.42)

§11-55-06 Transmission of data to Regional Administrator. The director shall transmit to the Regional Administrator copies of NPDES forms received by the State in a manner as the director and Regional Administrator shall agree. Any agreement between the State and the Regional Administrator shall provide for at least the following:

- (1) Prompt transmittal to the Regional Administrator of a complete copy of any NPDES form received by the State;
- (2) Procedures for the transmittal to the national data bank of a complete copy, or relevant portions thereof, of any appropriate NPDES forms received by the State;
- (3) Procedures for acting on the Regional Administrator's written waiver, if any, of the Regional Administrator's rights to receive copies of NPDES forms with respect to classes, types, and sizes within any category

- of point sources and with respect to minor discharges or discharges to particular navigable waters or parts thereof;
- (4) An opportunity for the Regional Administrator to object in writing to deficiencies in any NPDES application or reporting form received by the Regional Administrator and to have the deficiency corrected. If the Regional Administrator's objection relates to an NPDES application, the director shall send the Regional Administrator any information necessary to correct the deficiency and shall, if the Regional Administrator so requests, not issue the NPDES permit until the department receives notice from the Regional Administrator that the deficiency has been corrected;
 - (5) An opportunity for the Regional Administrator to identify any discharge which has a total volume of less than fifty thousand gallons per day on every day of the year as a discharge which is not a minor discharge. If the Regional Administrator so identifies a discharge and notifies the director, the director shall require the owner or its duly authorized representative to submit additional NPDES application forms or any other information requested by the Regional Administrator in the Regional Administrator's notification to the director;
 - (6) Procedures for the transmittal, if requested by the Regional Administrator, of copies of any notice received by the director from publicly owned treatment works pursuant to sections 11-55-23(5) and 11-55-23(6); and
 - (7) Variance applications shall be processed in accordance with the procedures set forth in HRS §342D-7 and 40 CFR §§122.21(m) through (o), 124.62, and 403.13. [Eff. 11/27/81; am and comp 10/29/92; am and comp]
(Auth: HRS §§342D-4, 342D-5, 342D-14, 33 U.S.C. §§1251, 1342, 1370) (Imp: HRS §§342D-2, 342D-4, 342D-5, 342D-14, 33 U.S.C. §§1251, 1342, 1370, 1251-1387, 40 CFR Parts 122; 123;

124, Subparts A and D; 125; §§122.21(a),
122.21(m), 122.21(n), 122.21(o), 123.25(a),
124.62, 403.13)

§11-55-07 Identity of signatories to NPDES forms.

(a) Any NPDES form and its certification, as stated in 40 CFR §122.22(d), submitted to the director shall be signed as follows:

- (1) For a corporation. By a responsible corporate officer. For the purpose of this section, a responsible corporate officer means: (i) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy- or decision-making functions for the corporation, or (ii) the manager of one or more manufacturing, production, or operating facilities employing more than two hundred fifty persons or having gross annual sales or expenditures exceeding \$25 million (in second-quarter 1980 dollars), if authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures;
- (2) For a partnership or sole proprietorship. By a general partner or the proprietor, respectively; or
- (3) For a municipality, state, federal, or other public agency. By either a principal executive officer or ranking elected official. For purposes of this section, a principal executive officer of a federal agency includes: (i) the chief executive officer of the agency, or (ii) a senior executive officer having responsibility for the overall operations of a principal geographic unit of the agency (e.g., Regional Administrators of EPA).

(b) All other reports or responses to requests for information required by the director shall be signed by a person designated in subsection (a) or by a duly authorized representative of that person. A

§11-55-07

person is a duly authorized representative only if:

- (1) The authorization specifies either an individual or a position having responsibility for the overall operation of the regulated facility or activity such as the position of plant manager, superintendent, or position of equivalent responsibility, or an individual or position having overall responsibility for environmental matters for the company, (A duly authorized representative may thus be either a named individual or any individual occupying a named position.);
- (2) The authorization is made in writing by a person designated under subsection (a); and
- (3) The written authorization is submitted to the director. [Eff. 11/27/81; am and comp 10/29/92; am and comp]

§11-55-08 Formulation of tentative determinations and draft permit. (a) The director shall formulate and prepare tentative staff determinations with respect to an NPDES application in advance of public notice of the proposed issuance or denial of an NPDES permit. Tentative determinations shall include at least the following:

- (1) A proposed determination, including those contained in 40 CFR §122.44(m) if applicable, to issue or deny an NPDES permit for the discharge described in the NPDES application; and
- (2) If the determination is to issue the NPDES permit, the following additional tentative determinations:
 - (A) Proposed effluent limitations, identified pursuant to sections 11-55-19 and 11-55-20 for those pollutants

- proposed to be limited;
- (B) A proposed schedule of compliance, if required, including interim dates and requirements, for meeting the proposed effluent limitations, identified pursuant to section 11-55-21;
- (C) Monitoring requirements identified pursuant to sections 11-55-28 and 11-55-30; and
- (D) A brief description of any other proposed special conditions (other than those required in section 11-55-22) which will have a significant impact upon the discharge described in the NPDES application.

(b) If a tentative determination is to issue an NPDES permit, the director shall organize the tentative determination pursuant to subsection (a) into a draft permit.

(c) The director shall prepare draft permits when required by 40 CFR §124.5(c) or (d). [Eff. 11/27/81; am and comp 10/29/92; am and comp]

§11-55-09 Public notice of applications. (a) The director shall notify the public of every complete application for an NPDES permit in a manner designed to inform interested and potentially interested persons of the proposed discharge and of the proposed determination to issue an NPDES permit for the proposed discharge. Public notification of an application for a variance from an NPDES permit, pursuant to Section 316(a) of the Act, 33 U.S.C. §1326(a), and section 342D-7, HRS, shall also comply with the requirements contained in 40 CFR §124.57(a). Public notice procedures shall include at least the following:

- (1) Notice shall be circulated within the geographical areas of the proposed discharge; circulation includes any or all of the

following:

- (A) Posting in the post office and public places of the municipality nearest the premises of the owner or operator in which the effluent source is located;
 - (B) Posting near the entrance to the owner's or operator's premises and in nearby places; or
 - (C) Publishing in local newspapers and periodicals, or, if appropriate, in a daily newspaper of general circulation.
- (2) Notice shall be mailed to any person or group upon request and the persons listed in 40 CFR §§124.10(c)(1)(i) through (v); and
 - (3) The director shall add the name of any person, including those specified in 40 CFR §§124.10(c)(1)(ix) and (x), or group upon request to a mailing list to receive copies of notices for all NPDES applications within the State or within a certain geographical area.

(b) The director shall provide a period of not less than thirty days following the date of the public notice during which time interested persons may submit their written views on the tentative determinations with respect to the NPDES application. All written comments submitted during the thirty-day comment period shall be retained by the director and considered in the formulation of the director's final determination with respect to the NPDES application. The director shall respond to comments, at a minimum, when and as required by 40 CFR §§124.17(a) and (c). The comment period may be extended at the discretion of the director.

(c) The public notice shall include at least the following:

- (1) Name and address of the agency issuing the public notice;
- (2) Name and address of each owner or operator or both and the name and address of the facility or activity;
- (3) A brief description of the activities or operations which result in the discharge described in the NPDES application;
- (4) Name of the state water to which each

- discharge is made, a short description of the location of each discharge, and whether the discharge is a new or an existing discharge;
- (5) A statement of the tentative determination to issue or deny an NPDES permit for the discharge described in the NPDES application;
 - (6) A brief description of the procedures for the formulation of final determinations, including the procedures for public comment, requesting a public hearing, and any other means of public participation offered; and
 - (7) Name, address, and telephone number of a person at the state or interstate agency where interested persons may:
 - (A) Obtain further information;
 - (B) Request a copy of the draft permit prepared pursuant to section 11-55-08(b);
 - (C) Request a copy of the fact sheet described in section 11-55-10 (if prepared); and
 - (D) Inspect and copy NPDES forms and related documents.

(d) All publication and mailing costs associated with the public notification of the director's tentative determinations with respect to the NPDES application shall be paid by the owner or operator to the appropriate publishing agency or agencies determined by the director. Failure to provide and pay for public notification, as deemed appropriate by the director, is a basis to delay issuance of an NPDES permit. §11-55-10 Fact Sheet. (a) The director shall prepare a fact sheet for every draft permit for a major facility or activity, for every class I sludge management facility, for every draft permit that

§11-55-10

incorporates a variance or requires an explanation pursuant to 40 CFR §124.56(b), for every draft permit that includes a sewage land application plan under 40 CFR §501.15(a)(2)(ix), and for every draft permit which the director finds is the subject of widespread public interest or raises major issues. The director shall send the fact sheet to the owner or operator, its authorized representative, and, upon request, to any other person.

(b) Fact sheets shall include at least the following information:

- (1) A sketch or detailed description of the location of the discharge described in the NPDES application; a brief description of the type of facility or activity which is the subject of the draft NPDES permit;
- (2) A quantitative description of the discharge described in the NPDES application which includes at least the following:
 - (A) The rate or frequency of the proposed discharge; if the discharge is continuous, the average daily flow in gallons per day or million gallons per day or cubic feet per second;
 - (B) For thermal discharges subject to limitation under the Act, the average summer and winter temperatures in degrees Fahrenheit or Celsius; and
 - (C) The average daily discharge in pounds per day of any pollutants which are present in significant quantities or which are subject to limitations or prohibition under Sections 301, 302, 306, or 307 of the Act, 33 U.S.C. §§1311, 1312, 1316 or 1317, and regulations published under those sections;
- (3) The tentative determinations required under section 11-55-08;
- (4) A brief citation, including a brief identification of the uses for which the receiving state waters have been classified, of the water quality standards, and effluent standards and limitations applied to the

proposed discharge;

- (5) A more detailed description of the procedures for the formulation of final determinations than that given in the public notice including:

- (A) The thirty-day comment period required by section 11-55-09(b);
- (B) Procedures for requesting a public hearing and the nature thereof; and
- (C) Any other procedures by which the public may participate in the formulation of the final determinations;

- (6) Name and telephone number of a person to contact for additional information; and

- (7) The information required by 40 CFR §§124.8(b)(5), 124.56(a), 124.56(b), 124.56(c), and 124.56(e).

(c) The director shall add the name of any person or group upon request to a mailing list to receive copies of fact sheets. §11-55-11 Notice to other government agencies.

(a) The director shall notify other appropriate government agencies of each complete application for an NPDES permit and shall provide the agencies an opportunity to submit their written views and recommendations.

(b) When notifying the public pursuant to section 11-55-09, a fact sheet shall be transmitted to the appropriate District Engineer of the Army Corps of Engineers of NPDES applications for discharges into navigable waters.

(c) The director and the District Engineer for each Corps of Engineers district within the State or interested area may arrange for:

- (1) Waiver by the District Engineer of the District Engineer's right to receive fact

§11-55-11

sheets with respect to classes, types, and sizes within any category of point sources and with respect to discharges to particular navigable waters or parts thereof; and

- (2) Any procedures for the transmission of forms, period for comment by the District Engineer (e.g., thirty days), and for objections of the District Engineer.

(d) A copy of any written agreement between the director and the District Engineer shall be forwarded to the Regional Administrator and shall be made available to the public for inspection and copying.

(e) The director shall mail copies of public notice (or, upon specific request, copies of fact sheets) of applications for NPDES permits to any federal, state, or local agency, upon request, and shall provide the agencies an opportunity to respond, comment, or request a public hearing. The notice and opportunity shall extend to at least the following:

- (1) The agency responsible for the preparation of an approved plan pursuant to Section 208(b) of the Act, 33 U.S.C. §1288(b); and
- (2) The state agency responsible for the preparation of a plan pursuant to an approved continuous planning process under Section 303(e) of the Act, 33 U.S.C. §1313(e), unless the agency is under the supervision of the director.

(f) The director shall notify and coordinate with appropriate public health agencies for the purpose of assisting the owner or its duly authorized representative in coordinating the applicable requirements of the Act with any applicable requirements of the public health agencies. [Eff.

§11-55-12 Public access to information. (a) The director shall ensure that any NPDES forms (including

the draft permit prepared pursuant to section 11-55-08(b)), any public comment upon those forms pursuant to section 11-55-09(b), or information required, kept, or submitted pursuant to section 11-55-24(c) shall be available to the public for inspection and copying during established office hours. The director, at the director's discretion, may also make available to the public any other records, reports, plans, or information obtained by the state agency pursuant to its participation in NPDES.

(b) The director shall protect any information (other than effluent data) as confidential upon a request and showing by any person that the information, if made public, would divulge methods or processes entitled to protection as trade secrets of a person. Claims of confidentiality shall be denied regarding the name and address of any owner or operator applying for an NPDES permit or permittee, permit applications, permits, and effluent data. Information required by NPDES application forms may not be claimed confidential. This includes information supplied in attachments to the NPDES application forms. If, however, the information being considered for confidential treatment is contained in an NPDES form, the director shall forward the information to the Regional Administrator for the Regional Administrator's concurrence in any determination of confidentiality. If the Regional Administrator advises the director that the Regional Administrator does not concur in the withholding of the information, the director shall then make available to the public, upon request, that information determined by the Regional Administrator not to constitute trade secrets.

(c) Any information accorded confidential status, whether or not contained in an NPDES form, shall be disclosed, upon request, to the Regional Administrator, who shall maintain the disclosed information as confidential.

(d) The director shall provide facilities for the inspection of information relating to NPDES forms and shall insure that state employees honor requests for inspection with due regard for the dispatch of other public duties. The director shall either:

(1) Ensure that a machine or device for the

§11-55-12

- copying of papers and documents is available for a reasonable fee; or
- (2) Otherwise provide for or coordinate with copying facilities or services so that requests for copies of nonconfidential documents may be honored promptly. §11-55-13 Public hearings. (a) The owner or operator, Regional Administrator, any interested agency, person, or group of persons may request or petition for a public hearing with respect to NPDES applications. Any request or petition for public hearing shall be filed within the thirty-day period prescribed in section 11-55-09(b) and shall indicate the interest of the party filing the request and the reasons why a hearing is warranted.

(b) The director shall provide the public notice of public hearing to the owner or operator or its duly authorized representative for publication according to section 11-55-14. The public notice shall include the information required by 40 CFR §§124.10(d)(1) and (d)(2).

(c) The director shall hold a hearing if the director determines that there is a significant public interest (including the filing of requests or petitions for a hearing) in holding a hearing. Instances of doubt should be resolved in favor of holding the hearing. Any hearing brought pursuant to this subsection shall be held in the geographical area of the proposed discharge or other appropriate area, at the director's discretion, and may, as appropriate, consider related groups of NPDES permit applications. §11-55-14 Public notice of public hearings. (a) Public notice of any hearing held pursuant to section 11-55-13 shall be circulated as widely as the notice of the NPDES application. Public notice for hearings held under section 11-55-13 shall be:

- (1) Published at least once in a newspaper of general circulation within the geographical area of the discharge;
- (2) Sent to all persons and government agencies which received a copy of the notice or the fact sheet for the NPDES application;
- (3) Mailed to any person or group upon request and the persons listed in 40 CFR §§124.10(c)(1)(i) through (v), (ix), and (x); and
- (4) Effected pursuant to paragraphs (1) and (3) of this subsection at least thirty days in advance of the hearing.

(b) The public notice of any hearing held pursuant to section 11-55-13 shall include at least the following information:

- (1) Name and address of the agency holding the public hearing;
- (2) Name and address of each owner or operator or both whose NPDES application will be considered at the hearing and the name and address of the facility or activity;
- (3) Name of the state water to which each discharge is made, a short description of the location of each discharge, and whether the discharge is a new or existing discharge;
- (4) A brief reference to the public notice for proposed action issued for each NPDES application, including identification number and date of issuance, if applicable;
- (5) Information regarding the date, time, and location of the hearing;
- (6) The purpose of the hearing, including a concise statement of the issues raised by the persons requesting the hearing, as

§11-55-14

applicable:

- (7) A brief description of the nature of the hearing, including the rules and procedures to be followed; and
- (8) Name, address, and telephone number of a person at the state or interstate agency where interested persons may:
 - (A) Obtain further information;
 - (B) Request a copy of each draft permit prepared pursuant to section 11-55-08(b);
 - (C) Request a copy of each fact sheet prepared pursuant to section 11-55-10; and
 - (D) Inspect and copy NPDES forms and related documents.

(c) All publication costs associated with the public notification of the director's determinations to hold public hearing with respect to the NPDES application shall be paid by the owner or operator to the appropriate publishing agency or agencies determined by the director. Failure to provide and pay for public notification, as deemed appropriate by the director, is a basis to delay issuance of an NPDES permit. §11-55-15 Issuance of NPDES permits. (a) The director may issue an NPDES permit for any period not exceeding five years and may renew a permit for any additional periods not exceeding five years.

(b) The director shall issue or renew an NPDES permit on the following basis:

- (1) The existing treatment works or waste outlet is designed, built, and equipped in accordance with:
 - (A) The best practicable control technology currently available or the best available technology economically

- achievable or the best conventional pollutant control technology for point sources other than publicly owned treatment works; and
- (B) For publicly owned treatment works, secondary treatment or the best practicable waste treatment technology, so as to reduce wastes to a minimum.
 - (2) New treatment works or waste outlets are designed and built in compliance with the applicable standards of performance;
 - (3) The new or existing treatment works or waste outlet is designed and will be constructed or modified to operate without causing a violation of applicable rules of the department;
 - (4) The new or existing treatment works or waste outlet will not endanger the maintenance or attainment of applicable water quality standards;
 - (5) The facility shall comply with effluent standards and limitations, water quality standards and other requirements, as applicable in sections 11-55-19, 11-55-20, and 11-55-22; and
 - (6) The facility shall comply with sections 11-55-27 through 11-55-32.
 - (c) NPDES permits at a minimum shall include conditions and requirements at least as stringent as:
 - (1) Those conditions contained in sections 11-55-16, 11-55-17, 11-55-23, and 40 CFR §122.41;
 - (2) The requirement that the owner or operator provide the facilities as necessary for monitoring of the authorized waste discharge into state waters and the effects of the wastes on the receiving state waters. The monitoring program shall comply with sections 11-55-28 through 11-55-32;
 - (3) The requirement of compliance with any applicable effluent standards and limitations, water quality standards, and other requirements imposed by the director pursuant to sections 11-55-19, 11-55-20, and 11-55-22; and

§11-55-15

- (4) Conditions requested by the Corps of Engineers and other government agencies as described in 40 CFR §124.59.

(d) The director may issue a permit to an existing facility which does not or cannot presently comply with subsections (b) and (c) only if the permit includes a schedule of compliance with specific deadlines for bringing the facility into compliance with subsections (b) and (c). Schedule of compliance shall comply with section 11-55-21.

(e) In acting upon an NPDES application for an NPDES permit the director shall deny the application unless the information submitted shows that the new or existing treatment works or waste outlet described in the NPDES application can, conditionally or otherwise, meet the conditions of subsection (b) or (c).

(f) Notwithstanding the above, the director shall not issue a permit or grant a modification or variance for any of the following:

- (1) Discharge of any radiological or biological warfare agent, or high-level radioactive waste into navigable waters;
- (2) Discharge which the Secretary of the Army, acting through the Chief of Engineers, finds would substantially impair anchorage and navigation;
- (3) Discharge to which the Regional Administrator has objected in writing pursuant to any right to object provided the Administrator in Section 402(d) of the Act, 33 U.S.C. §1342(d);
- (4) Discharge from a point source which is in conflict with a plan or amendment thereto approved pursuant to Section 208(b) of the Act, 33 U.S.C. §1288(b); or
- (5) When prohibited by 40 CFR §122.4.

§11-55-16 Modification or revocation and reissuance of NPDES permits. (a) Each NPDES permit shall be subject to modification or revocation and reissuance by the director after notice and opportunity for a contested case hearing.

(b) Permits may be modified for the reasons and under the procedures specified in 40 CFR §§122.62 and 122.63.

(c) Permits may be revoked and reissued for the reasons and under the procedures specified in 40 CFR §§122.62 and 122.62(b).

(d) The procedures and criteria for minor permit modifications are those specified in 40 CFR §122.63.

(e) All applications made pursuant to section 342D-7, HRS, for a variance from the terms and conditions of an NPDES permit shall also be deemed as applications for a modification under this section. §11-55-17 Termination of permits and denial of renewal. (a) On the expiration date specified in the NPDES permit, the NPDES permit shall automatically terminate and the permittee shall be divested of all rights therein.

(b) Each NPDES permit renewal application shall be subject to denial and each issued NPDES permit shall be subject to termination by the director after notice and opportunity for a contested case hearing.

(c) The following are causes for terminating a permit during its term or for denying a permit renewal application:

- (1) Noncompliance by the permittee with any condition of the permit;

§11-55-17

- (2) The permittee's failure in the application or during the permit issuance process to disclose fully all relevant facts, or the permittee's misrepresentation of any relevant facts at any time;
- (3) A determination that the permitted activity endangers human health or the environment and can only be regulated to acceptable levels by permit modification or termination; or
- (4) A change in any condition that requires either a temporary or permanent reduction or elimination of any discharge or sludge use or disposal practice controlled by the permit (for example, plant closure or termination of discharge by connection to a publicly owned treatment works). §11-55-19 Application of effluent standards and limitations, water quality standards, and other requirements. (a) NPDES permits shall apply and ensure compliance with the following whenever applicable:

- (1) Effluent limitations under Sections 301 and 302 of the Act, 33 U.S.C. §§1311 and 1312;
- (2) Standards of performance for new sources;
- (3) Effluent standards, effluent prohibitions, and pretreatment standards under Section 307 of the Act, 33 U.S.C. §1317;
- (4) Any more stringent limitation, including those:
 - (A) Necessary to meet water quality standards, treatment standards, or schedules of compliance, established pursuant to any state law or rules (under authority preserved by Section 510 of the Act, 33 U.S.C. §1370); or
 - (B) Necessary to meet any other federal law or regulations including, but not limited to:
 - (i) Toxic pollutant effluent standards in 40 CFR Part 129.
 - (ii) Secondary treatment regulation in 40 CFR Part 133.
 - (iii) Effluent guidelines and standards in 40 CFR Chapter I, subchapter N, Parts 400 to 471.
 - (iv) Criteria and standards in 40 CFR Part 125 Subparts A, B, C, D, H, J, K, and M; and
 - (v) Standards for sludge handling in 40 CFR §122.44(b)(2), 40 CFR Part 503 and state rules.
 - (C) Required to implement any applicable water quality standards; the limitations to include any legally applicable requirements necessary to implement total maximum daily loads established pursuant to Section 303(d) of the Act, 33 U.S.C. §1313(d) and incorporated in the continuing planning process approved under Section 303(e) of the Act, 33 U.S.C. §1313(e) and any regulations and guidelines issued pursuant thereto;
- (5) Any more stringent legally applicable requirements necessary to comply with a plan approved pursuant to Section 208(b) of the

§11-55-19

Act, 33 U.S.C. §1288(b);

- (6) Prior to promulgation by the Administrator of applicable effluent standards and limitations pursuant to Sections 301, 302, 306, and 307 of the Act, 33 U.S.C. §§1311, 1312, 1316, and 1317, the conditions, as the director determines are necessary to carry out the provisions of the Act; and
- (7) If the NPDES permit is for the discharge of pollutants into the navigable waters from a vessel or other floating craft, any applicable regulations promulgated by the secretary of the department in which the Coast Guard is operating, establishing specifications for safe transportation, handling, carriage, storage, and stowage of pollutants.

(b) In any case where an issued NPDES permit applies the effluent standards and limitations described in paragraphs (a)(1), (2), and (3), the director shall state that the discharge authorized by the permit shall not violate applicable water quality standards and shall have prepared some explicit verification of that statement. In any case where an issued NPDES permit applies any more stringent effluent limitation based upon applicable water quality standards, a waste load allocation shall be prepared to ensure that the discharge authorized by the permit is consistent with applicable water quality standards.

§11-55-21 Schedule of compliance in issued NPDES permits. (a) With respect to any discharge which is not in compliance with applicable effluent standards and limitations, applicable water quality standards, or other legally applicable requirements listed in section 11-55-19, the permit shall require the permittee to take specific steps to achieve compliance with the following:

- (1) In accordance with any legally applicable schedule of compliance contained in:
 - (A) Applicable effluent standards and limitations;
 - (B) If more stringent, effluent standards and limitations needed to meet water quality standards; or
 - (C) If more stringent, effluent standards and limitations needed to meet legally applicable requirements listed in section 11-55-19, or
 - (2) In the absence of any legally applicable schedule of compliance, in the shortest, reasonable period of time, which shall be consistent with the guidelines and requirements of the Act.
- (b) When a schedule specifies compliance longer than one year after permit issuance, the schedule of

compliance shall specify interim requirements and the dates for their achievement and in no event shall more than one year elapse between interim dates. If the time necessary for completion of the interim requirement (such as the construction of a treatment facility) exceeds one year and is not readily divided into stages for completion, the schedule shall specify interim dates for the submission of reports of progress towards completion of the interim requirements. For each NPDES permit schedule of compliance, interim dates, reporting dates, and the final date for compliance shall, to the extent practicable, fall on the last day of the month of March, June, September, and December. §11-55-22 Compliance schedule reports. (a)

Either before or up to fourteen days following each interim date and the final date of compliance, the permittee shall provide the director with written notice of the permittee's compliance or noncompliance with the interim or final requirement.

(b) On the last day of the months of February, May, August, and November, the director shall transmit to the Regional Administrator a list of all instances, as of thirty days prior to the date of the report, of failure or refusal of a permittee to comply with an interim or final requirement or to notify the director of compliance or noncompliance with each interim or final requirement (as required pursuant to subsection (a) of this section). The list shall be available to the public for inspection and copying and shall contain at least the following information with respect to each instance of noncompliance:

- (1) Name and address of each noncomplying permittee;
- (2) A short description of each instance of noncompliance (e.g. failure to submit

preliminary plans; two weeks delay in commencement of construction of treatment facility; failure to notify director of compliance with interim requirement to complete construction by June 30th, etc.);

- (3) A short description of any actions or proposed actions by the permittee or the director to comply or enforce compliance with the interim or final requirement; and
- (4) Any details which tend to explain or mitigate an instance of noncompliance with an interim or final requirement (e.g. construction delayed due to materials shortage, plan approval delayed by objection from state fish and wildlife agency, etc.).

(c) The first NPDES permit issued to a new source shall contain a schedule of compliance only when necessary to allow a reasonable opportunity to attain compliance with requirements issued or revised after commencement of construction but less than three years before commencement of the relevant discharge. For permit renewals, a schedule of compliance shall be available only when necessary to allow a reasonable opportunity to attain compliance with requirements issued or revised less than three years before recommencement of the discharge.

(d) If a permittee fails or refuses to comply with an interim or final requirement in an NPDES permit, noncompliance shall constitute a violation of the permit for which the director may modify, revoke and reissue, or terminate the permit pursuant to sections 11-55-16 and 11-55-17 or may take direct enforcement action. §11-55-23 Other terms and conditions of issued NPDES permits. In addition to the requirements previously specified, each permit shall be subject to

the following terms and conditions:

- (1) All discharges authorized by the NPDES permit shall be consistent with the terms and conditions of the NPDES permit;
- (2) The permittee shall report at least as required by 40 CFR §122.41(l), and where applicable, 40 CFR §§122.42(a), (b), and (c).
- (3) Facility expansions, production increase, or process modifications which result in new or increased discharges of pollutants shall be reported by submission of a new NPDES application, or, if the discharge does not violate effluent limitations specified in the NPDES permit, by submission to the director of notice of the new or increased discharges of pollutants pursuant to 40 CFR §122.42(a);
- (4) The discharge of any pollutant more frequently than or at a level in excess of that identified and authorized by the NPDES permit shall constitute a violation of the terms and conditions of the NPDES permit;
- (5) The permittee shall allow the director or an authorized agent, including a contractor of the Administrator, upon the presentation of credentials to:
 - (A) Enter the permittee's premises in which an effluent source is located or in which any records are kept under terms and conditions of the NPDES permit;
 - (B) Have access to and copy any records kept under terms and conditions of the NPDES permit;
 - (C) Inspect any facilities, equipment (including monitoring and control equipment), practices, or operations regulated or required under the NPDES permit; or
 - (D) Sample any discharge of pollutants or effluent;
- (6) Any treatment facility treating domestic sewage and also receiving industrial waste from one or more indirect dischargers may be required to develop for the director's approval a pretreatment program in accordance

- with applicable requirements in 40 CFR Part 403. The pretreatment program approved by the director may then be incorporated into the NPDES permit as a permit condition;
- (7) If the NPDES permit is for a discharge from a publicly or privately owned treatment works, the permittee shall notify the director in writing of the following:
- (A) Any new introduction of pollutants into a publicly or privately owned treatment works from an indirect discharger which would be subject to Sections 301 and 306 of the Act, 33 U.S.C. §1311 and §1316, if the indirect discharger were directly discharging those pollutants;
 - (B) Any substantial change in volume or character of pollutants being introduced into the treatment works by a source introducing pollutants into the works at the time of issuance of the permit;
 - (C) The quality and quantity of effluent to be introduced into a treatment works; and
 - (D) Any anticipated impact caused by a change in the quality or quantity of effluent to be discharged from a publicly owned treatment works;
- (8) If the NPDES permit is for a discharge from a publicly owned treatment works with an approved pretreatment program pursuant to section 11-55-24, the director shall incorporate the approved pretreatment program into the NPDES permit as a permit condition. The permittee shall require any industrial user of the treatment works to comply with the requirements contained in the approved pretreatment program and the requirements of Sections 204(b), 307, and 308 of the Act, 33 U.S.C. §§1284, 1317, and 1318. The permittee shall also require each industrial user subject to the requirements of Section 307 of the Act, 33 U.S.C. §1317, to forward copies of periodic reports (over intervals not to exceed nine months) of progress towards full

§11-55-23

compliance with Section 307 of the Act, 33 U.S.C. §1317 requirements, to the permittee and the director;

- (9) The permittee at all times shall maintain in good working order and operate as efficiently as possible any facility or system of control installed by the permittee to achieve compliance with the terms and conditions of the NPDES permit; and
- (10) If a toxic effluent standard or prohibition (including any schedule of compliance specified in the effluent standards or prohibition) is established under Section 307(a) of the Act, 33 U.S.C. §1317(a), for a toxic pollutant which is present in the permittee's discharge and the standard or prohibition is more stringent than any limitation upon the pollutant in the NPDES permit, the director shall revise or modify the permit in accordance with the toxic effluent standard or prohibition and notify the permittee. (b) The director, upon receipt of the request for an approval of a pretreatment program, shall review and decide on the request in accordance with procedures described in 40 CFR §403.11.

(c) Any person discharging any pollutant or

effluent into a publicly owned treatment works shall permit the director, upon presentation of credentials, to:

- (1) Enter the premises of a person subject to pretreatment requirements in which an effluent source is located or in which any records are kept under terms and conditions of a pretreatment requirement;
- (2) Inspect any facilities, equipment (including monitoring and control equipment), practices, or operations required by a pretreatment requirement; and
- (3) Sample any discharge of pollutants or effluent.

(d) No person shall introduce into any publicly owned treatment works any pollutant or effluent in violation of 40 CFR §403.5.

(e) The director may require any person discharging any pollutant or effluent into a publicly owned treatment works to:

- (1) Establish and maintain records;
- (2) Make reports;
- (3) Install, use, and maintain monitoring equipment or methods;
- (4) Sample effluent and state waters;

§11-55-27 Renewal of NPDES permits. (a) The director shall review applications for reissuance of NPDES permits. Any permittee who wishes to continue to discharge after the expiration date of the permittee's NPDES permit shall file for renewal of the permit at least one hundred eighty days prior to its expiration.

(b) The scope and manner of any review of an application for renewal of an NPDES permit shall be within the discretion of the director and shall be sufficiently detailed as to ensure the following:

- (1) The permittee is in compliance with or has substantially complied with all the terms, conditions, requirements, and schedules of compliance of the current or expired NPDES permit;
- (2) That the director has current information on the permittee's production levels; permittee's waste treatment practices; nature, contents, and frequency of permittee's discharge through the submission of new forms and applications or from monitoring records and reports submitted to the director by the permittee; and
- (3) That the discharge is consistent with applicable effluent standards and limitations, water quality standards, and other legally applicable requirements, including any additions to, revisions, or modifications of the effluent standards and limitations, water quality standards, or other legally applicable requirements during the term of the permit.

(c) The director shall follow the notice and public participation procedures specified in this chapter in connection with each request for reissuance of an NPDES permit.

(d) Notwithstanding any other provision in this section, any point source, the construction of which commenced after October 18, 1972 and which is constructed to meet all applicable new source performance standards, shall not be subject to any more stringent new source performance standard, except as specified in 40 CFR §122.29(d)(2), for the earliest

§11-55-28 Monitoring. (a) Any discharge authorized by an NPDES permit may be subject to monitoring requirements as may be reasonably required by the director, including the installation, use, and maintenance of monitoring equipment or methods (including, where appropriate, biological monitoring methods).

(b) Any discharge authorized by an NPDES permit which:

- (1) Is not a minor discharge;
- (2) The Regional Administrator requests, in writing, be monitored; or
- (3) Contains toxic pollutants for which an effluent standard has been established by the Administrator pursuant to Section 307(a) of the Act, 33 U.S.C. §1317,

shall be monitored by the permittee for at least the items listed in subsection (c).

(c) Monitored items:

- (1) Flow (in gallons per day or cubic feet per second); and
- (2) All of the following pollutants:
 - (A) Pollutants (either directly or

indirectly through the use of accepted correlation coefficient or equivalent measurements) which are subject to reduction or elimination under the terms and conditions of the NPDES permit;

- (B) Pollutants which the director finds, on the basis of available information, could have a significant impact on the quality of state waters;
- (C) Pollutants specified by the Administrator in regulations issued pursuant to the Act, as subject to monitoring; and
- (D) Any pollutants in addition to the above which the Regional Administrator requests, in writing, to be monitored.

(d) Each effluent flow or pollutant required to be monitored pursuant to subsection (c) shall be monitored at intervals sufficiently frequent to yield data which reasonably characterizes the nature of the discharge of the monitored effluent flow or pollutant. Variable effluent flows and pollutant levels shall be monitored at more frequent intervals than relatively constant effluent flows and pollutant levels. §11-55-29 Recording of monitoring activities and results. When any NPDES permit requires monitoring of the authorized discharge:

- (1) The permittee shall maintain records of all information resulting from any monitoring activities required by the NPDES permit;
- (2) Any records of monitoring activities and results shall include for all samples:
 - (A) The date, exact place, and time of sampling or measurements;
 - (B) The individual(s) who performed the sampling or measurements;

§11-55-29

- (C) The date(s) the analyses were performed;
 - (D) The individual(s) who performed the analyses;
 - (E) The analytical techniques or methods used; and
 - (F) The results of the analyses; and
- (3) The permittee shall retain for a minimum of three years any records of monitoring activities and results including all original strip chart recording for continuous monitoring instrumentation and calibration and maintenance records. This period of retention shall be extended during the course of any unresolved litigation of administrative enforcement action regarding the discharge of pollutants by the permittee or when requested by the director or Regional Administrator. §11-55-31 Sampling and testing methods. (a) All

sampling and testing shall be done in accordance with test procedures approved by the director and, when applicable, with guidelines establishing test procedures for the analysis of pollutants published by the Administrator in accordance with Section 304(g) of the Act, 33 U.S.C. §1314(g). All tests shall be made under the direction of persons knowledgeable in the field of water pollution control.

(b) The director may conduct tests of waste discharges from any source. Upon request of the director, the person responsible for the source to be tested shall provide necessary sampling stations and other safe and proper sampling and testing facilities, exclusive of instruments and sensing devices, as may be necessary for proper determination of the waste discharge. §11-55-32 Malfunction, maintenance, and repair of equipment. (a) There shall be no shut-down of water pollution treatment facilities for purposes of maintenance unless a schedule or plan for the maintenance has been submitted to and approved by the director prior to the shut-down.

(b) In the case of a shut-down of water pollution control equipment for necessary maintenance, the intent to shut down the equipment shall be reported to and approved by the director at least twenty-four hours prior to the planned shut-down. The prior notice shall include, but is not limited to, the following:

- (1) Identification of the specific facility to be taken out of service, as well as its location and NPDES permit number;
- (2) The expected length of time that the water pollution control equipment will be out of service;
- (3) The nature and quantity of discharge of water pollutants likely to be emitted during the shut-down period;

§11-55-32

- (4) Measures that will be taken to minimize the length of the shut-down period, such as the use of off-shift labor and equipment;
- (5) Identification of any adverse impacts to the receiving state waters which could be caused by the wastes which are to be bypassed; and
- (6) The reasons that it would be impossible or impractical to shut down the source operation during the maintenance period.

(c) In the event that any water pollution control equipment or related facility breaks down in a manner causing the discharge of water pollutants in violation of applicable rules, the person responsible for the equipment shall immediately notify the director of the failure or breakdown and provide a statement giving all pertinent facts, including the estimated duration of the breakdown. The director shall be notified when the condition causing the failure or breakdown has been corrected and the equipment is again in operation.

§11-55-33 Agency board membership. (a) Any board or body which approves NPDES permit applications or portions thereof shall not include as a member any person who receives, or has during the previous two years received, a significant portion of the person's income directly or indirectly from permittees or persons applying for an NPDES permit.

(b) For the purposes of this section, the term "board or body" includes any individual, including the director, who has or shares authority to approve permit applications or portions thereof either in the first instance or on appeal.

(c) For the purposes of this section, the term "significant portion of the person's income" shall mean ten per cent of gross personal income for a calendar year, except that it shall mean fifty per cent of gross personal income for a calendar year if the recipient is

over sixty years of age and is receiving that portion pursuant to retirement, pension, or similar arrangement.

(d) For the purposes of this section, the term "permittees or persons applying for an NPDES permit" shall not include any state department or agency.

(e) For the purposes of this section, the term "income" includes retirement benefits, consultant fees, and stock dividends.

(f) For the purposes of this section, income is not received "directly or indirectly from permittees or persons applying for an NPDES permit" where it is derived from mutual fund payments or from other diversified investments over which the recipient does not know the identity of the primary sources of income.

§11-55-34 General permit definitions. As used in sections 11-55-34.01 through 11-55-34.12:

"Category of sources" means either:

- (1) Storm water point sources; or
- (2) A group of point sources other than storm water point sources if all sources in the group:
 - (A) Involve the same or substantially similar types of operations;
 - (B) Discharge the same types of wastes or engage in the same types of sludge use or disposal practices;
 - (C) Require the same effluent limitations, operating conditions, or standards for sewage sludge use or disposal;
 - (D) Require the same or similar monitoring; and
 - (E) In the opinion of the director, are more appropriately controlled under a general permit than under an individual permit.

"General permit" means an NPDES permit issued as a

§11-55-34

rule or document that authorizes a category of discharges into state waters from a category of sources within a geographical area.

"Geographical area" means existing geographical or political boundaries such as:

- (1) Designated planning areas under Sections 208 and 303 of the Act;
- (2) Sewer districts or sewer authorities;
- (3) City, county, or state political boundaries;
- (4) State highway systems;
- (5) Standard metropolitan statistical areas as defined by the Office of Management and Budget;
- (6) Urbanized areas as designated by the Bureau of the Census according to criteria in 30 Federal Register 15202 (May 1, 1974); or
- (7) Any other appropriate division or combination of boundaries.

"Individual permit" means an NPDES permit, other than a general permit, issued under this chapter to a specified person to conduct a discharge at a specified location.

"Notice of intent" or "NOI" means a form used to notify the director, within a specified time, that a person seeks coverage under a general permit.

"Notice of general permit coverage" or "NGPC" means an authorization issued to the owner or operator by the department to comply with the NPDES general permit.

"Permittee" means the person to whom the notice of general permit coverage is issued or the person who obtains automatic general permit coverage under section 11-55-34.09(e)(2).

"Point source" means the same thing as defined in 33 U.S.C. §1362. [Eff and comp 10/29/92; am and comp] (Auth: HRS §§342D-4, 342D-5, 33 U.S.C. §§1342, 1370, 1251-1387, and 40 CFR §122.28) (Imp: HRS §§342D-2, 342D-4, 342D-5, 342D-50, 33 U.S.C. §§1311, 1342, 1370, 1251-1387, 40 CFR Parts 122, 123, 124, 125, §§122.2, 122.28, 123.25(a)(11))

§11-55-34.02 General permit authority and adoption. (a) The director may adopt general permits.

(b) The appendices located at the end of this chapter are adopted and incorporated by reference as general permits for the following applicable categories of sources:

- (1) Appendix B, entitled "NPDES General Permit Authorizing Discharges of Storm Water Associated with Industrial Activities," dated October 1997, for discharges composed entirely of storm water associated with certain industrial activities as identified in 40 CFR §§122.26(b)(14)(i) through 122.26(b)(14)(ix) and §122.26(b)(14)(xi);
- (2) Appendix C, entitled "NPDES General Permit Authorizing Discharges of Storm Water Associated with Construction Activity," dated October 1997, for storm water discharges from construction activities including clearing, grading, and excavation activities except for operations that result in the disturbance of less than five acres of total land area which are not part of a larger common plan of development or sale as identified in 40 CFR §122.26(b)(14)(x);
- (3) Appendix D, entitled "NPDES General Permit Authorizing Discharges of Treated Effluent from Leaking Underground Storage Tank Remedial Activities," dated October 1997, for the discharge of treated effluent from the leaking underground storage tank remedial activities;
- (4) Appendix E, entitled "NPDES General Permit Authorizing Discharges of Once Through Cooling Water Less Than One (1) Million

§11-55-34.04 General permit conditions. (a)

Discharges covered by general permits shall comply with the applicable sections of state water quality standards in chapter 11-54, and the applicable provisions of this chapter, including, but not limited to, sections 11-55-18, 11-55-19, 11-55-20, 11-55-21, 11-55-22, 11-55-23, 11-55-28, 11-55-29, 11-55-30, 11-55-31, 11-55-32, and 11-55-34.07.

(b) Appendix A, entitled "Department of Health Standard General Permit Conditions," dated October 1997, and located at the end of this chapter is adopted, incorporated by reference, and applies to each general permit.

§11-55-34.05 Requiring an individual permit.

Notwithstanding the provisions of a general permit, the director may require any person covered by a general permit to apply for and obtain an individual permit. Cases where an individual permit may be required include, but are not limited to, the following:

- (1) The discharger or "treatment works treating domestic sewage" is not in compliance with the conditions of the general permit;
- (2) A change has occurred in the availability of demonstrated technology or practices for the control or abatement of pollutants applicable to the point source or treatment works treating domestic sewage;
- (3) Effluent limitation guidelines are promulgated for point sources covered by the general permit;
- (4) A water quality management plan containing requirements applicable to the point sources is approved;

§11-55-34.05

- (5) Circumstances have changed since the time of the request to be covered so that the permittee is no longer appropriately controlled under the general permit or either a temporary or permanent reduction or elimination of the authorized discharge is necessary;
- (6) Standards for sewage sludge use or disposal have been promulgated for the sludge use and disposal practice covered by the general permit; or
- (7) The discharge(s) is a significant contributor of pollutants to state waters. In making this determination, the director may consider the following factors:
 - (A) The location of the discharge with respect to state waters;
 - (B) The size of the discharge;
 - (C) The quantity and nature of the pollutants discharged to the state waters; and
 - (D) Other relevant factors. [Eff and comp 10/29/92; am and comp]

§11-55-34.06 Relationship of general and individual permits. (a) Any owner or operator covered by a general permit may request to be excluded from the coverage of the general permit by applying for an individual permit. The owner or operator shall submit an application with reasons supporting the request to the director.

(b) When an individual permit is issued to an owner or operator otherwise covered by a general permit, the coverage of the general permit to the individual permittee is automatically terminated on the effective date of the individual permit.

(c) A source excluded from a general permit

solely because it already has an individual permit may request that the individual permit be revoked and that it be covered by the general permit. Upon revocation of the individual permit, the general permit shall apply to the source. §11-55-34.07 Degree of waste treatment. All discharges covered by a general permit shall receive treatment or corrective action to insure compliance with the terms and conditions of the issued permit and with the following, whenever applicable:

- (1) Effluent limitations established by the EPA pursuant to Sections 301, 302, 306, 307, 318, and 405 of the Act;
- (2) Criteria and standards for best management practices established by the EPA pursuant to Section 304(e) of the Act;
- (3) Notwithstanding paragraphs (1) and (2), more stringent effluent limitations may be required as deemed necessary by the director:
 - (A) To meet any existing federal laws or regulations; or
 - (B) To insure compliance with any applicable state water quality standards, effluent limitations, treatment standards, or schedule of compliance; and
- (4) Calculations and specifications of effluent limits and standards shall be made in accordance with the provisions of federal regulations, 40 CFR §122.45. §11-55-34.08

§11-55-34.08 Notice of intent. (a) Persons seeking coverage under a general permit shall submit a notice of intent.

(b) A notice of intent shall be submitted on forms provided by the director. A notice of intent shall comply with the notice of intent requirements of the respective general permit. A notice of intent shall be accompanied by all pertinent information which the director may require in order to establish effluent limitations, including, but not limited to, complete engineering reports, schedule of progress, plans, specifications, maps, measurements, quantitative and qualitative determinations, records, and all related materials.

(c) The director may require that all reports, plans, specifications, and other material submitted to the director be prepared by a licensed professional engineer.

(d) Material submitted shall be complete and accurate.

(e) Any notice of intent form submitted to the director shall be signed in accordance with section 11-55-07.

(f) All other reports or responses to requests for information required by the director shall be signed in accordance with section 11-55-07.

(g) Any change in the written authorization submitted to the director under subsection (f) which occurs after the issuance of a permit shall be reported to the director by submitting a copy of a new written authorization which meets the requirements of subsections (e) and (f).

(h) Any person signing a document under subsections (e) and (f) shall make a certification in accordance with 40 CFR §122.22(d).

(i) Each owner or operator who submits a notice of intent to be covered under the general permit provisions or for renewal of general permit coverage shall pay a filing fee of \$500. This filing fee shall be submitted with the notice of intent and shall not be refunded nor applied to any subsequent NPDES individual permit application following final action denying coverage under the general permit provisions.

- (1) When a notice of intent is submitted to the director for a substantial alteration or addition to the treatment works or waste outlet and where a general permit authorization has previously been granted for the treatment works or waste outlet, the owner or operator shall be assessed the fee of \$500.
- (2) A new owner or operator or both of a discharge facility covered by the general permit provisions shall file a new notice of intent unless the new owner submits a notice of automatic transfer that meets 40 CFR §122.61(b). The new owner or operator shall be assessed the fee of \$500.
- (3) Fees shall be made payable to the "State of Hawaii" in the form of a cashier's check or money order.

(j) The notice of intent shall be submitted to the director no later than thirty calendar days before the discharge of pollutants to state waters. The submittal date is the date the department receives the notice of intent. The thirty day period includes weekends and holidays. If the director notifies the owner or operator or its duly authorized representative that the notice of intent is incomplete, the thirty day period shall start over upon receipt of the revised notice of intent. The director may waive this thirty day requirement by notifying the owner or operator in writing of a notice of general permit coverage before the thirty days expire. §11-55-34.09 Notice of intent review, notice of general permit coverage , additional conditions, terms, renewals, effective dates, and automatic coverage. (a) After receipt of a notice of intent, the director may notify the owner or operator or its duly authorized

§11-55-34.09

representative in writing that the notice of intent is complete or incomplete, whether the proposed activity or discharge(s) is covered under a general permit, or whether an individual permit application is required.

(b) After receipt of the complete notice of intent, the director may notify the owner or operator in writing of a notice of general permit coverage. This includes issuing a notice of general permit coverage after automatic coverage applies under section 11-55-34.09(e)(2) even if the owner or operator has not waived automatic coverage. The director may impose conditions in a notice of general permit coverage or add conditions to an issued notice of general permit coverage to ensure that the activity or discharge(s) complies with the terms and conditions of the general permit and to ensure that state water quality standards will not be violated.

(c) A notice of general permit coverage may limit coverage under the general permit to a term of less than five years.

(d) The director may administratively extend a notice of general permit coverage upon receipt of a notice of intent for renewal of a notice of general permit coverage before the expiration of the general permit or the term of the notice of general permit coverage, whichever occurs first. The permittee who submits a notice of intent for renewal of the notice of general permit coverage shall be treated as an owner or operator applying for permit renewal under section 342D-6(g), HRS.

(e) Authorization to discharge under the general permit is effective upon the earlier of:

- (1) Notification by the director of general permit coverage under subsection (b); or
- (2) The thirtieth day after receipt at the clean water branch of the department of a complete notice of intent for a new notice of general permit coverage and the applicable filing fee, unless before the thirtieth day the director notifies the owner or its duly authorized representative that the notice of intent is incomplete. This paragraph does not apply to a notice of intent for renewal of a notice of general permit coverage.

(f) A person claiming coverage under the automatic provision of subsection (e)(2), instead of under an issued notice of general permit coverage under subsections (a) through (d), assumes the risks that:

- (1) The notice of intent may later be found to be incomplete by the director or by a court;
- (2) The person may not be covered under the terms of the general permit, even if the notice of intent is complete;
- (3) The person may be acting in conflict with the general permit or this chapter, even if the person is complying with its notice of intent; and
- (4) The director may modify, revoke and reissue, or terminate a notice of general permit coverage under section 11-55-34.11.

(g) A person may waive automatic coverage under subsection (e)(2) by notifying the director in writing that the person will wait for a notice of general permit coverage before starting the activity or discharge.

(h) Written notification by the department under this section is complete upon mailing or sending a facsimile transmission or electronic mailing of the document or actual receipt of the document by the owner or its duly authorized representative. [Eff and comp 10/29/92; am 09/23/96; am and comp]
